

# Whistleblower Hotline

R-Biopharm AG strives to continuously improve. For this we depend on your support.

We have therefore set up a reporting office (whistleblower hotline) through which employees, as well as business partners, customers and third parties, can report information about violations of regulations and policies.

Such indications give us the opportunity to identify, investigate and eliminate grievances.

If you have information about reasonable suspicions or knowledge of actual or potential violations, you can notify us by phone or email at

**0351 89 6667 36**

**[r-biopharm.whistleblower@lorica.legal](mailto:r-biopharm.whistleblower@lorica.legal)**

Incoming reports are carefully checked by us and treated confidentially.
